Dear Lil and Har,

Via third parties, Alma & Sam, I hear that your health problems are slowly being resolved. However the best way to find out if it's so, I wanna hear it right from the horses mouth. Nay? Har, is there someone interested in making a documentary of you

10-01-1202 over

to rebut the JFK film by Oliver Stone? I wasn't quite clear when you sent me a copy of his letter, I sent it to my son who, as a sideline (avocation), does documentaries. His real vocation is TV commercials. I asked my son if your fascinating life would make a human interest doc. He will let me know, and I you.

Both Sam and I feel that you're squandering your limited energies by taking on too many causes and corresponding with too many freeloaders, who further sap your energies. I especially believe you should conserve your health. As a muckraker, rake the muck that pays off. With love, Joe
